KNOWN CHALLENGES WITH BMS

1. Most error messages are a result of exceeding the character limit in a text box
2. Most save errors are a result of not having all required fields filled out on the tab.
3. Most submittal errors are a result of not having all the required fields filled out in an application
4. Look for the error message near the button
5. Start your application early
6. Contact the BMS Administrator early if there is a problem, don't wait till the deadline!
7. A User Feedback Questionnaire will be circulated to allow users to comment on the BMS system.
